MIECO E1 Chipboard

DID YOU KNOW?

Formaldehyde is a colourless, strong-smelling chemical commonly found in household products and building materials like furniture, cabinets, flooring, and adhesives. While useful in manufacturing, high exposure levels may cause irritation and serious health issues. E1 Grade Certification signifies these materials emit very low levels of formaldehyde, meeting stringent EU standards for indoor air quality and safety.

A Green Home, where quality life begins.

A space—whether home, office, or a mix of both—significantly shapes our lifestyle, providing a nurturing environment that fosters tranquility and mindful living. As widespread desire for eco-friendly and health-focused spaces grows, where we spent hours living in, curating a momentum for the life we want to craft, MIECO recognizes and encourages shared practices that support the well-being and improvement of our quality of life, space and planet.

Introducing Enhanced MIECO Particle Board **E1 certified Melamine Faced Chipboards!**

All MIECO MFC is now E1 certified! We're committed to quality and sustainability — bringing you eco-friendly, affordable quality lifestyle products you can trust.

What's NEW?

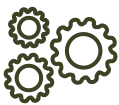

Expanded Options

Explore a diverse spectrum of decors, whole range in E1 Grade.

Eco-Conscious Manufacturing

Our particle boards meet stringent E1 standards, ensuring healthier environment for you and the planet.

Versatility & Durability

Crafted with superior quality you trust, now enhanced with eco-friendliness, maintaining durability and reliability across all projects.

Sustainability

Choosing E1 certified boards means actively contributing to sustainable practices, reducing environmental impact without compromising quality.

Whether you're an architect, designer, or DIY enthusiast, our E1 certified particle boards offer performance, style, and sustainability. Explore our catalogue for a vibrant range of colours to elevate your next project!

WHY CHOOSE E1 GRADE?

WHAT DOES IT MEAN?

U.S. Environmental Protection Agency (EPA) emphasises that controlling formaldehyde emission is essential for maintaining healthy indoor environments. Safety guidelines are intended to protect against irritation of eyes, nose and throat, to prevent long term health risk.

Certified under EN (European Norm), E1 standard is recognised by World Health Organisation (WHO) as a health safety recommendations and guideline for safe Indoor Air Quality (IAQ). This means, if your house is made of certified E1 boards, you can be assured of safe indoor air environment for you and your family.

Technical Specification for Plain Particleboard

MIECO Plain Particleboard is an engineered wood panel product. It is specially manufactured industries for furniture and joinery. Our product conforms to European Standard ("EN") and is available in a standard range of panel sizes in vary thicknesses ranging.

General Requirements

	Properties	Test Method	Requirement
1	Tolerance on nominal dimension a. Thickness (sanded) within and between boards b. Length and width	EN 324-1	±0.3mm ±5mm
2	Edge straightness tolerance	EN 324-2	1.5mm per m
3	Squareness tolerance	EN 324-2	2mm per m
4	Warpage	EN 324-2	1/600mm
5	Moisture content	EN 322	5% to 13%
6	Tolerance on mean density within a board	EN 323	±10%
7	Formaldehyde release a. Class E1	ISO 12460-5	≤ 8mg/100g

Adopted across Malaysia, Singapore and European markets, E1-grade board is an established benchmark for indoor air quality, fully aligned with European Standard (EN). The European Norm (EN) is a standard that requires board to be tested with methodology to meet its specification, pass all stringent requirements through multiple test methods verification, in order to be certified E1 grade board. In addition, E1 grade boards formaldehyde emission levels are almost equivalent the emission level of US CARB II/ TSCA and Japan F*** grade, with no significant impact on health in term of Indoor Air Quality.

Strictly safe low-emission formaldehyde standards make E1 grade board globally recognised as the baseline for health-safe interiors. This is why you should make sure material you buy, have such reliable certification to build a quality space.

Bring the assurance of great indoor air quality living into your space. In MIECO, we make every healthy space affordable, without breaking your bank.

Build with MIECO, breath with peace

MIECO HPL x MFC

The Infinite Series

The Mieco Infinite Series represents a groundbreaking expansion for MIECO COLLECTION. First launched in 2022, MIECO Infinite Series is now a collection of more than 100 designs that is available in both **High Pressure Laminates (MIECO HPL)** and **Melamine Faced Chipboard (MIECO MFC)**. This collection provides innovation, versatility, and unparalleled quality and functionality, elevating your space instantly.

Each piece within the Mieco Infinite Series is a fusion of form and function, marrying sleek aesthetics with exceptional usability. With the blend of MIECO HPL x MFC, creators, designers, crafters, furniture makers, are no longer restricted from limitations of HPL or MFC products, and are able to design spaces with flexibility, comfort, quality and sustainability.

What sets the Mieco Infinite Series apart is its commitment to sustainability. MIECO Infinite Series are now **ALL AVAILABLE in E1** grade certification. It is within MIECO's commitment to bring quality living into the community we strive in at affordable prices. Constructed using eco-friendly materials and production techniques, MIECO products embody a conscientious approach to be your space and your product's first choice of material.

Innovation and adaptability are at the core of the Mieco Infinite Series. Whether you seek a statement decor that captivates attention for your space or your furniture that effortlessly adapts to evolving needs, this collection represents the pinnacle of modern design, inviting you to experience the perfect harmony of form, function, and sustainability in your living spaces.

Let MIECO HPL x MFC The Infinite Series bring your imagination to life.

SCAN ME!

DISCLAIMER:

Product must be inspected prior to installation. MIECO will not be responsible for any claims arising from sample chips pasting errors. Samples shown in this binder may have slight colour tone variation from laminate delivered due to production batches. Customers are advised to request for the samples and reconfirm the colour at time of proposing to your clients or ordering if necessary. Should there be any manufacturing fault, our liability will be limited to the extent of the cost of the product only.

Use and care guidelines

MIECO HPL provides high durability by the properties of impact resistant, scratch resistant, abrasion resistant, stain resistant and moisture resistant under normal use and conditions. To better care for your HPL:

- Avoid using strong acidic, alkaline or abrasive cleaners as it might damage laminates surfaces.
- Never place hot cookware or heat producing appliances on laminates surfaces. Use of table mat or other protector are recommended. High temperature might cause surface cracks or blister.
- Never use any sharp/ heavy object like knives and hammer directly on laminates surface.
- Permanent contact with water or wet substances should be avoided.

Cleaning and maintenance

HPL need minimal maintenances and easy to clean.

- Wipe the surface with a clean and soft microfiber or damp cloth to keep away normal stains.
- For stubborn/ special stains, may consider using mild household cleaner or non-bleach detergent. Always use detergent application via a cloth, avoid direct application of detergent on laminates surfaces.

MIECO MFC Compatibility

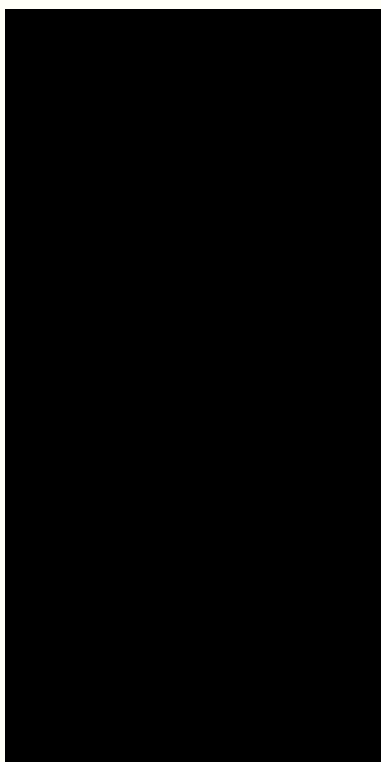

All MIECO HPL has corresponding colours in MIECO MFC and can be cross-references with the last 4 number code in MIECO HPL colour code.

Eg: 1-3049 - Code 3049 available in MIECO MFC collection

DISCLAIMER:

1. There may be slight colour variation due to the different manufacturing process in MIECO HPL and MIECO MFC. Customers are advised to request for actual sample for comparison. Please kindly inspect all product prior to installation.
2. Kindly refer to our website for product overview. You may scan the QR code for more.
3. MFC colour codes labeled with the HPL tag are also available in High Pressure Laminate (HPL) finish.
